

# John Bosworth: a life in photographs

Bishop's Waltham Museum  
in the Palace grounds:  
2018 Exhibition  
Open 5 May - 30 September  
Saturday/Sunday 12-4 pm

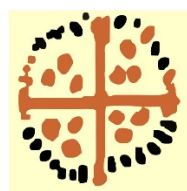

During 2018 the exhibition focused on the prolific work of John Bosworth. John was an enthusiastic and talented historian who documented the many changes to Bishop's Waltham over the years and collected most of the historic photographs of which the museum is so proud.

The Museum has a vast collection of John's photographs and other informative material which we will be sharing with our visitors in the future.

John was also the instigator of the very first Bishop's Waltham Museum which was held at the Institute and then in rooms let to us by Barclays Bank.
